

Notes on 2012-2013 Founder's District alignment

The main objective of realignment is to balance to district officer workload so that all members receive the best service possible. All areas must start the year with 4-6 clubs. Due to the fact that nine clubs chartered during May and June, 2012, the 2012-13 alignment was revised from what was last presented to the district council.

No boundary changes were enacted for 2012-13. However several clubs are technically "out of their Division", and are aligned for historical or balancing reasons. These clubs include: 9314 Pan Pacific, 691 – Mesa Messengers, 2146196 LACSD Toastmasters, 5803 – TM Taboos, and 2635079, Express and Impress. There may be others that we are unaware of

Division A – 2447708 – The Liftoff club has been chartered and assigned to A2.
1396080 – Toastmagination has been suspended.

Division B – Fewer changes were instituted as compared to the alignment presented at the spring conference. This should provide better service to the members.

Division C – The only changes are due to club migrations.

Division D – Realignment .make some areas more geographically compact.

Division E – In-migration and new club formation necessitated the addition of a sixth area.

Division F – Club 1233 has been suspended.

Division G – The alignment is in agreement with club locations. Club 2505960 – KBB has chartered.

Division H – 2635079 - Express and Impress has chartered.
